

You can find Visual Studio from **Mac** on this page:

<https://visualstudio.microsoft.com/vs/mac/>

Visual Studio is currently not supported for **Linux**. You can install Visual Studio Code instead:

[https://code.visualstudio.com/?wt.mc\\_id=DX\\_841432](https://code.visualstudio.com/?wt.mc_id=DX_841432)

Please refer to this link for more information about installing and running Visual Studio Code on Linux:

<https://code.visualstudio.com/docs/setup/linux>
